CRITICAL CARE CART

PRODUCT DESCRIPTION

Overview

The Critical Care Cart, created by Modular Services Company, consists of a heavy-duty, chemically resistant frame, handrail, and casters for durability and effortless mobility. The configurable product provides options with adjustable/removable swivel baskets and storage drawers for maximum application in the clinical environment. There is a continuous grab rail for easy handling and user control during transport and an HPL work surface that folds down for next-to-wall storage.

Options & Finishes

The Critical Care Cart is available in 5 models with various configurations.

All laminated surfaces come standard in "Surf" with matching edge banding.

Metal surfaces are powder coated to match the standard "Surf" laminate finish and baskets are powder coated.
