CLINICAL SERVICE WALL

PREFABRICATED CLINICAL SERVICE WALL

CREATED BY MODULAR SERVICES COMPANY

H Core is a prefabricated clinical service wall created to supplement conventional construction in patient rooms and clinical spaces. Drawing from over 40 years of designing and manufacturing prefabricated hospital products, MSC has created H Core to be built to order and configured based on the option selected by the hospital staff and designer. Let MSC partner with your design and construction team to provide an advanced prefabricated product.
