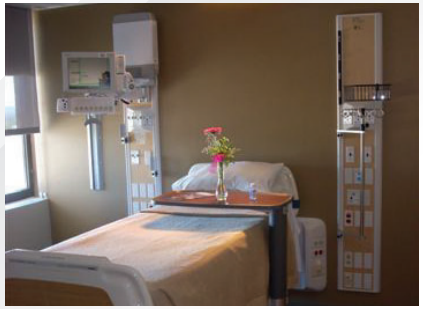
AESTHETIC DESIGN

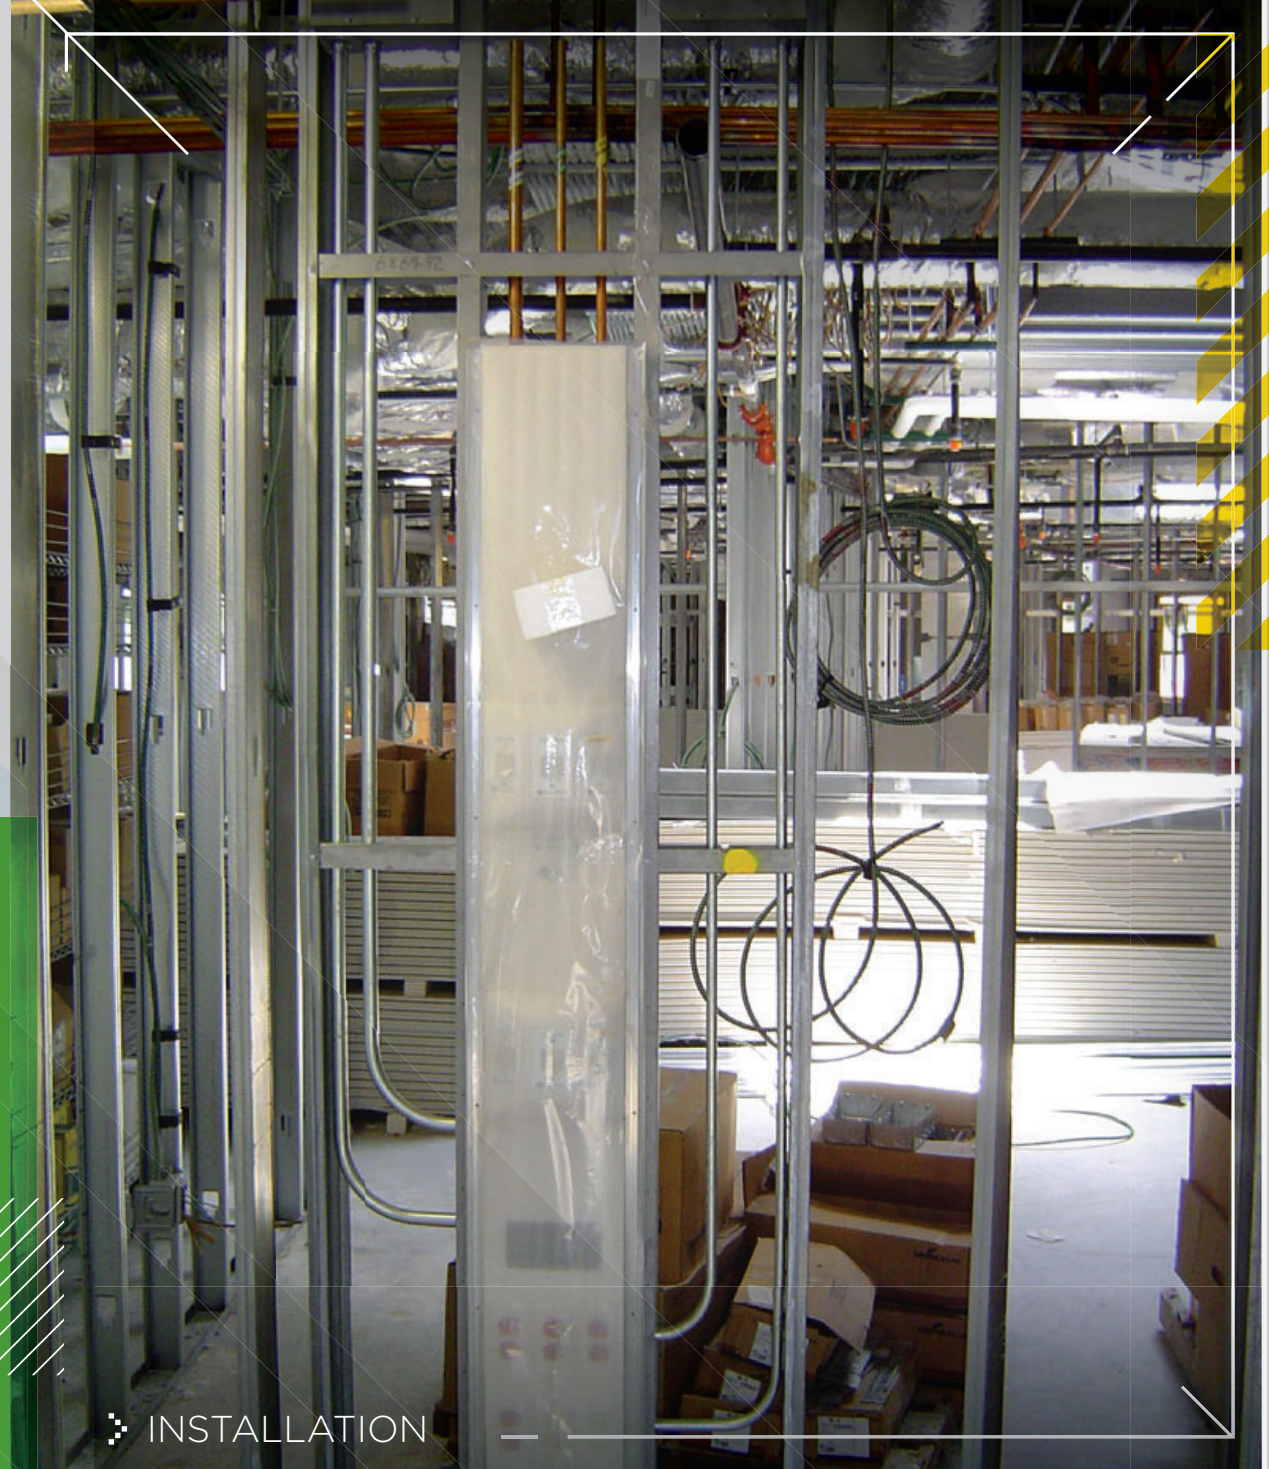
The Profile® provides ergonomically placed medical gases, electrical services, and equipment management and will contribute to any interior design scheme with a wide variety of laminate choices.

PANEL SYSTEM OPTION

Create a unique look for your facility by adding panel walls. For an enhanced aesthetic appearance, MSC will design decorative wall panels for standard headwalls. Decorative panels are custom designed for each customer.

ROOM EXAMPLES





INSTALLATION

PRODUCT FEATURES

- Vertical Headwall positioned at bedside, pre-piped and wired with specific building studs attached (ships to jobsite as one complete unit)
- The Profile® is recessed into the wall, only protruding 1.25 inches from the wall
- Choose from 2 different construction options: Profile Standard Configuration and Profile IR (Internal Raceways)
- Provisions for nurse call and code blue button
- Simple Installation
- Sleek Design

INSTALLATION OPTIONS

For ease of installation and to provide contractors with the best option that fits the needs of each room, Modular Services Company offers two different installation options.

The Profile may also be installed as a double-sided Profile unit. This installation is a convenient and cost-effective method of installing two Profile headwalls in a single unit. This configuration provides services for two independent rooms with a shared wall.
